Bui Thi Huyen

— Senior Frontend Engineer & AI-Integrated Developer

PROFESSIONAL SUMMARY 15+ YEARS

A Software Engineer with over **15 years of experience** (since 2011) specializing in Frontend development, particularly within the **ReactJS and Next.js** ecosystems. Deep experience delivering large-scale projects for the **Japanese market** with strict quality standards and professional collaboration culture. Core strength in transforming complex **Figma designs into pixel-perfect interfaces** with optimized UX. Pioneer in adopting next-generation AI tools — **Claude Code, Antigravity, Cursor** — to streamline workflows and enhance code quality.

WORK EXPERIENCE

● **EXIDEA VIETNAM** 🇯🇵 Japanese Company

Senior Frontend Engineer / AI Lead

May 2025 - Present

ReactJS Next.js WordPress Ant Design Claude Code Antigravity Figma

- ▶ Implemented and managed diverse web projects from WordPress CMS sites to modern React/Next.js applications.
- ▶ Converted complex Figma designs into pixel-perfect interfaces with optimized motion effects and cross-device UX.
- ▶ Pioneered integration of **Claude Code (CLI) & Antigravity** into daily workflows — automating logic reviews, refactoring, and rapid issue resolution in large-scale systems.
- ▶ Built a unified Design System with **Ant Design + Storybook**, standardizing reusable components and reducing delivery time by **30%**.
- ▶ Achieved high **Core Web Vitals** scores on Next.js projects, boosting load speed and SEO for Japanese clients.

● HYBRID TECHNOLOGIES 🇯🇵 Japanese Company

Frontend Developer

Aug 2022 – May 2025

React

AWS Amplify

PHP Laravel

WordPress

- ▶ **Ecotas:** Built a platform connecting e-commerce shoppers to CO2 reduction projects using React & AWS.
- ▶ **Mixi & CrevoJP:** Converted detailed designs into interfaces for leading Japanese entertainment and video consulting platforms.
- ▶ **DYM:** Built a healthcare recruitment website with smooth interaction and accessibility focus.

● 3S INTERSOFT JSC

Developer

Oct 2020 – May 2022

Node.js

Salesforce

- ▶ Developed real estate management systems (**VHO-SCC**) using Node.js and the Salesforce framework.

● EVOLABLE ASIA 🇯🇵 Japanese Company

Developer

Jun 2015 – Oct 2019

- ▶ 5 years of direct collaboration with Japanese clients — cultivating a strong product mindset and professional interface standards.

FEATURED PROJECTS

Finhay – Fintech & E-commerce Frontend Developer

Built UI components for a leading Vietnamese investment and wealth management application. Collaborated with the Design team to refine UI/UX, making user transactions and navigation more natural and fluid.

EDUCATION & CERTIFICATIONS

Engineer in Information Systems

Hanoi University of Transport and Communications · Graduated 2011

International Certification – APROTRAIN-APTECH

2009 – 2011

Professional Certification: Engineer in Information Technology

2011

CAREER OBJECTIVE

Seeking to leverage **15 years of experience** and masterful design-to-code skills to create exceptional Frontend interfaces. My goal is to serve as a solid bridge between design and engineering while continuously applying the power of **AI tools** to deliver optimal value to Japanese clients' projects.
